COMMISSION OF PUBLIC RECORDS SERVICES

The statutory duty of the Commission of Public Records (CPR) is to employ a state records administrator to assist with the administration of the Public Records Act [Section 14-3-1 NMSA 1978 et seq.]. The state records administrator is the official custodian and trustee for the state of all public records and archives of whatever kind that are transferred to the SRCA from any public office of the state or from any other source. To accomplish this, the administrator is responsible for establishing a records management program for the application of efficient and economical management methods to the creation, utilization, maintenance, retention, preservation, and disposal of official records.

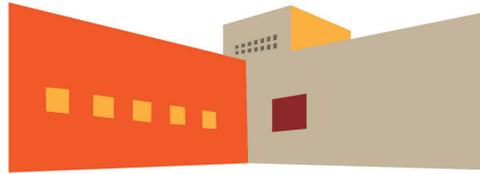

The act also provides for the establishment of a records center in Santa Fe, which is commonly known as the State Records Center and Archives (SRCA).

In addition to records management and preservation, the state records administrator is statutorily required to administer the State Rules Act (Section 14-4-1 NMSA 1978 et seq.). This act governs the official filing and publication of rules developed by executive agencies of New Mexico state government.

For purposes of the Accountability in Government Act (Section 6-3A-1 NMSA 1978 et seq.), the CPR identified a single program - records, information, and archival management - and four activities (or sub-programs). These activities are administration, public records management, administrative law, and New Mexico history and are administered through the following organizational units:

- Administrative Services Division
- State Archives of New Mexico
- Records Management Division
- Administrative Law Division
- Office of the State Historian
- Information Technology Management Division

Your Access to Public Information

The **VISION** of the Commission of Public Records:

- Be the state's leading resource in providing access to, preservation of, and interpretation of historical and current records.

The **MISSION** of the Commission of Public Records:

- Preserve, protect, and facilitate access to public records that are held in trust for the people of New Mexico;
- Ensure rules promulgated by state agencies are filed and published as prescribed in law and are accessible;
- Advocate an understanding and appreciation of New Mexico history; and
- Develop records and information management programs for state agencies.

The **GOALS** of the Commission of Public Records:

- Manage, preserve, and provide access to records and information;
- Enhance effectiveness of the agency; and
- Build positive awareness of agency resources and services.

MESSAGE FROM THE STATE RECORDS ADMINISTRATOR

The State Commission of Public Records serves New Mexico by ensuring the proper management and protection of public records. This mandate includes making the records accessible to the public for legal and historical purposes. This responsibility is considerable given that our democracy relies on public records to document and defend the rights of its people.

Through the administration of the Public Records Act, the State Rules Act, and through participation in the Cultural Properties Act, the agency and its staff provide the following key services to the public:

- Develop efficient and effective records management programs and assist with the proper disposition of public records;
- Collect, preserve, and make available to the public and all branches of government, permanent public records, historical manuscripts, photographs and other materials that contribute to an understanding of New Mexico history;
- Serve as filing point for rules promulgated by executive-branch agencies, for interstate compacts, and for county subdivision regulations;
- Manage, preserve, and make available to the public filed rules, notices, and other instruments;
- Advance an understanding and appreciation of New Mexico's history and culture through interpretive research, outreach, educational programming, presentations, and publication; and
- Serve on the Cultural Properties Review Committee, reviewing proposals for the preservation of cultural properties to protect and enhance structures, sites, and objects of historical significance within the state.

In fulfilling our statutory obligations to New Mexico's citizenry, it is our goal to provide quality customer service in a timely and professional manner. To accomplish this task, the staff and commission worked collaboratively to develop the following five-year strategic plan for fiscal years 2013-2018 and annual performance measures for fiscal year 2018.

Melissa T. Salazar, CA
State Records Administrator

MONITORING PLAN

Monitoring progress in meeting the strategic goals and specific annual action steps has always been a part of the agency's strategic planning process. Division directors and others responsible for designated performance measures are charged with developing internal tracking methods and for maintaining the requisite statistics to measure progress. They are required to report the statistical data and provide a narrative explanation on a quarterly basis.

Division directors and others responsible for measures must report progress by the 20th day of the month following the end of a quarter. Reporting may require a numeric entry in a format responsive to the target (dates, percentages, etc.), or provide a narrative explanation. Measures are considered to be on schedule during the year if they have been completed in conformance with the target or if sufficient progress has been made or sufficient time is remaining to assume that the target can reasonably be expected to be achieved.

The agency has also entered the required monitoring information in the Department of Finance and Administration performance monitoring database.

FISCAL YEAR 2018 LEGISLATIVE PERFORMANCE MEASURES
